

200G Proxy AI Server

Overview

GitHub - guyinwonder168/ai-proxy: AI Proxy Server - A high-performance, secure unified API gateway for multiple LLM providers (OpenAI, Gemini, Groq, OpenRouter, Cloudflare) with intelligent routing, rate limiting, and streaming support. If your AI models are getting blocked, throttled, or fed garbage data, you're basically trying to win a Formula 1 race with a bicycle. Enter the AI proxy server —your secret weapon to bypass bans, optimize traffic, and keep your AI workflows running smoother than a Netflix binge. Think of it as a. Agentgateway is an open source proxy built on AI-native protocols (MCP & A2A) that provides drop-in security, observability, and governance for agent-to-LLM, agent-to-tool, and agent-to-agent communication across any framework and environment. Features modular architecture, enhanced security, and. AI Proxy Server is an OpenAI-compatible http proxy server for inferencing various LLMs capable of working with Google, Anthropic, OpenAI APIs, local PyTorch inference, etc. through a single, standardized API endpoint. It routes your traffic through alternate IP addresses, making it possible to distribute requests, manage location targeting, and avoid getting blocked.
