

24-core single-mode pre-terminated optical cable

Overview

This cable is a 24 Fiber Single-mode, OS2 Trunk Cable with Pre-terminated connectors and a strengthened fan-out / breakout from 0. The breakout length is usually specified by the customer however the most common length is 0. Expensive splicing or polishing equipment is not needed. If you don't see. Pre-terminated indoor/outdoor fiber cable assembly is designed to support today's data needs while meeting tomorrow's ever-advancing network requirements. It's ideal for connecting the networks of two buildings through the use of an underground conduit, also installed in entrance facilities. They ensure the efficient delivery of audio, video, data, fiber internet, smart controls, and support HDMI. An MTP®/MPO cable is a high-density fiber optic cable that uses multi-fiber connector to transmit multiple optical signals through a single interface.
