

32 Double-row circuit distribution box

Overview

Experience streamlined power management with the DBSet 32 module, 2 row distribution board designed for surface mounting. The enclosure material is painted sheet steel thickness of 1. True flush, non-obtrusive design with intuitive door lock. Unique rounded corners & premium white color Recycled cardboard content is minimum 70% (50% in US). The calculation of the recyclability potential relies on the scenario. A distribution box is a low-voltage electrical enclosure that receives incoming power and distributes it safely to multiple outgoing circuits through protective and switching devices such as MCBs, RCDs, RCBOs, fuses, isolators, busbars, neutral bars, earth bars, and surge protective devices. size (without stand) = 29 x 41 x 14 cm weight (without stand) = 4,5kg IP44 Choosing the right 32 amp distribution box can simplify wiring, improve safety, and protect circuits in homes, workshops, and outdoor setups. Cover frame to be HIPS material.
