

910aai server

Overview

The Atlas 800 training server (model 9010) is an AI training server running on the Huawei Ascend 910 AI Processor and Intel Cascade Lake processor. It features high computing density, high energy efficiency ratio, high network bandwidth, easy expansion, and easy management. It is widely used in deep learning model development and. ServeTheHome is the IT professional's guide to servers, storage, networking, and high-end workstation hardware, plus great open source projects. DISCLAIMERS: We are a participant in the Amazon Services LLC Associates Program, an affiliate advertising program designed to provide a means for us to. The article provides a detailed technical analysis of Huawei's Ascend 910 AI processor, covering its Da Vinci architecture, hardware specifications, benchmark results, software ecosystem, application scenarios, and product roadmap, while also clarifying key terminology for readers. Huawei's processors use Arm cores of its own design.
