

Anritsu Optical Time Domain Reflectometer MT9085A

Overview

The MT9085A-057 from Anritsu Corporation is a Optical Time Domain Reflectometer (OTDR) with Optical Wavelength 1310 to 1625 nm, Dynamic Range 32.5 to 100 km (MM), DC Voltage 12 VDC. ACCESS Master series is a compact handheld all-in-one tester for performing optical pulse tests, optical loss and power measurements, and optical fiber end-face inspections The ACCESS Master MT9085 series is a compact handheld all-in-one tester for performing optical pulse tests, optical loss/power. Large 8-inch enhanced display for easy viewing of results indoors or outdoors Enhanced usability, utilizing a combination of both touch screen and hard-keys Easy to understand graphical summary using Anritsu industry leading "Fiber Visualizer" ACCESS Master has met and exceeded the needs of. The updated MT9085 ACCESS Master series of professional optical time domain reflectometers from the Japanese company Anritsu has replaced the previously produced series MT9083x2. Compared with the previous line of reflectometers, the new Anritsu MT9085 series received a high-resolution touch. This all-inclusive optical pulse tester was developed with a full range of functions, including a light source and optical power meter for measuring and finding faults in optical fibers. Multi-pulse measurement is supported with a 46-dB max. dynamic range and a dead zone of 0.

Article Content

MT9085A-057

The MT9085A-057 from Anritsu Corporation is a Optical Time Domain Reflectometer (OTDR) with Optical Wavelength 1310 to 1625 nm, Dynamic Range 32.5 to 37 dB, Pulse Width 3 to 20000 ns,

MT9085B-053

The MT9085B-053 from Anritsu Corporation is an Optical Time Domain Reflectometer (OTDR) that operates at a wavelength of 1310 nm - 1550 nm. It has a pulse width of 3 ns - 20000 ns and sampling

Anritsu MT9085 – professional optical reflectometers

All reflectometers of the Anritsu MT9085 series are characterized by high measurement accuracy and stable operation in harsh environments.

MT9085A-063

The MT9085A-063 from Anritsu Corporation is a Optical Time Domain Reflectometer (OTDR) with Optical Wavelength 850 to 1550 nm, Dynamic Range 28 to 39 dB, Pulse Width 3 to 4000 ns,

Anritsu MT9085A-063 ACCESS Master ODTR

Anritsu MT9085A-063 Optical Test Platform: an all-in-one ODTR for SMF and MMF I& M
The ACCESS Master MT9085-063 is a compact handheld all-in-one tester

MT9085 Series ACCESS Master MT9085A/B/C Brochure

This all-inclusive optical pulse tester was developed with a full range of functions, including a light source and optical power meter for measuring and finding faults in optical fibers.

MT9085B-055

The MT9085B-055 from Anritsu Corporation is a Optical Time Domain Reflectometer (OTDR) with Optical Wavelength 1310 to 1650 nm, Dynamic Range 35 to 42 dB, Pulse Width 3 to 20000 ns,

MT9085A-063

It is suitable for installation and maintenance of access and metro networks, providing high-resolution event detection and accurate measurement capabilities. The MT9085A-063 is engineered for field

Anritsu MT9085 Optical Component Test Series

Anritsu MT9085 Optical Component Test Series information include price quotes, manuals, application notes, reviews, videos, forums, and more.

Anritsu MT9085A-057 Used Rental Calibration New

New and used Anritsu MT9085A-057 OTDR - ACCESS Master Optical Time Domain Reflectometer (OTDR) with 1310/1550/1625 nm SM Optical Component Test prices, listings, repair, and calibration

MT9085 Series ACCESS Master Operation Manual

The Optical Time Domain Reflectometer (hereafter, OTDR) function provides the capability for measuring connection loss, fiber loss, and distance of an optical fiber.

Anritsu MT9085A Access Master

The Anritsu MT9085A Access Master is a versatile Optical Time Domain Reflectometer (OTDR) that is designed to test and troubleshoot fiber optic networks effectively. This portable device is user-friendly

Anritsu MT9085 A/B/C OTDR Series

The ACCESS Master MT9085 series is a compact handheld all-in-one tester for performing optical pulse tests, optical loss/power measurements, and optical

Anritsu MT9085A OTDR – High-Performance Fiber

Combining high performance with user-friendly operation, this OTDR is an essential tool for technicians working in fiber installation, maintenance, and

MT9085A-063

MT9085A-063 - Optical Time Domain Reflectometer (OTDR) from Anritsu Corporation. Get product specifications, Download the Datasheet, Request a Quote and get pricing for MT9085A-063 on
