

Belarusian CIF Price Fiber Optic Transceiver Module DML

AI Overview

CIF pricing for DML fiber optic transceiver modules in Belarus varies by model, typically ranging from \$200 to \$500 per 100G QSFP28 LR4 module, with shipping and insurance included. Overview of DML Fiber Optic Transceivers DML (Directly Modulated Laser) transceiver modules, such as QSFP28 100GBASE-LR4, are designed for high-speed optical communication over single-mode fiber, supporting distances up to 10 km with 4 CWDM 25Gb/s channels. These modules are compatible with a wide range of network devices, including switches, routers, and servers, and comply with QSFP28 MSA standards. They feature LC duplex connectors and digital diagnostic monitoring (DDM) for performance reliability. Availability in Belarus Desertcart offers delivery of 100G QSFP28 modules to Belarusian cities like Minsk, Gomel, Vitsyebsk, Mahilyow, and Hrodna, with shipping and customs handled by the platform. Fibermarkt provides QSFP28 LR4 DML modules with pre-programming for compatibility with various network devices, ensuring stable operation in Belarus. CIF Pricing Considerations The CIF price includes the product cost, insurance, and freight to Belarus. For standard 100G QSFP28 LR4 DML modules, prices generally range from \$200 to \$500 per unit, depending on the manufacturer, quantity, and shipping method. Bulk orders or industrial-grade modules with extended temperature ranges may increase the CIF price. Delivery times vary based on the supplier and shipping method, typically 5-15 business days for standard international shipping. Recommendations Verify compatibility with your network equipment before purchase. Consider suppliers that provide pre-programmed modules to avoid vendor lock-in issues. Check for warranty and return policies to ensure reliability and support in Belarus. By sourcing from platforms like Desertcart or Fibermarkt, you can obtain DML fiber optic transceivers...
