

Bolivia Metal Mesh Cable Tray Price Quote

AI Overview

Wire mesh cable trays in Bolivia typically range from \$2 to \$25 per meter, depending on material, size, and finish, with local suppliers offering tailored quotes. Suppliers in Bolivia One of the main suppliers is Jeetmull Jaichandlall (P) Ltd., which manufactures wire mesh cable trays in various sizes, shapes, and colors. They emphasize high-quality finishing, durability, and compliance with industry standards, making them suitable for sectors like construction, mining, automotive, and architecture. For a precise quote, contacting them directly is recommended, as they can customize trays to your project requirements.

Price Range and Factors The average price per meter for cable trays varies widely based on material and type:

- Wire mesh trays:** Generally the most affordable, ideal for lightweight cabling in offices or data centers.
- Galvanized steel:** Balances cost and durability, suitable for indoor and moderately corrosive environments.
- Stainless steel:** Higher cost but excellent corrosion resistance, ideal for harsh or outdoor conditions.
- Aluminum:** Lightweight and rust-proof, slightly more expensive than steel but easier to install.

Other factors affecting price include tray width, height, thickness, coating (HDG, powder-coated, pre-galvanized), and order quantity. Bulk orders can reduce costs by 20–40%, and shipping or installation may add to the total project cost.

Getting a Quote To obtain an accurate price quote in Bolivia:

- Specify the material, dimensions, and finish of the wire mesh tray.
- Indicate the quantity and any custom requirements.
- Contact local suppliers like Jeetmull Jaichandlall (P) Ltd. via their website or sales channels.
- Request a formal quotation, which may include shipping, installation, and bulk discounts.

By providing these details, suppliers can deliver a tailored quote that reflects both material costs and local market conditions.
