

Brunei Trapezoidal Cable Tray Price Inquiry

AI Overview

Trapezoidal cable trays in Brunei typically cost between BND 15 to BND 50 per meter, depending on material, coating, and supplier. Price Range and Factors

The cost of trapezoidal cable trays varies based on several factors:

- Material:** Galvanized steel is common and moderately priced, aluminum is lighter but more expensive, and stainless steel is the most costly due to corrosion resistance and durability.
- Coating:** Hot-dip galvanized (HDG) trays are more expensive than pre-galvanized steel but offer better outdoor durability. Powder-coated trays add protection and color options, increasing cost.
- Size and Type:** Trapezoidal trays are designed for heavy cable loads and may cost more than perforated or wire mesh trays due to structural strength requirements.
- Local Supplier and Shipping:** In Brunei, suppliers like Berakas Power Company and other local manufacturers provide cable trays with delivery included, which can affect the final price.

Estimated Costs

Based on market trends and material considerations:

- Steel (Pre-Galvanized):** BND 15–25 per meter
- Steel (Hot-Dip Galvanized):** BND 25–35 per meter
- Aluminum:** BND 35–50 per meter
- Stainless Steel:** BND 45–60 per meter

Bulk orders or project-based procurement may reduce the per-meter cost, while custom sizes or coatings can increase it.

Additional Considerations

- Installation Costs:** Labour, hangers, and supports are additional and vary by project complexity.
- Project Specifications:** Local regulations and BPC requirements may mandate specific materials or packaging, influencing cost.
- Supplier Quotes:** For precise budgeting, requesting a formal quotation from Brunei suppliers is recommended, as prices fluctuate with material costs and shipping.

In summary, while trapezoidal cable trays are generally more expensive than simple perforated or wire mesh trays, they provide superior load-bearing capacity and durability, with ty...
