

C-shaped steel for cable tray hoisting supports

Overview

C-shaped channel steel is produced using cutting-edge hot rolling or cold forming methodologies. When developing our cable support OBO can offer reliable solutions for systems, three attributes are at the routing and fastening cables securely core of what we do: efficiency, resilience for each of these installation challenges and safety. In the industrial environment. UNITECH's metal framing channel is cold formed on modern rolling machines from low carbon. C-Shaped steel, a marvel of modern engineering, refers to a uniquely designed steel material featuring a distinctive C-shaped cross-section. Crafted through advanced. Discover c channel steel cable trays with CE certification, ideal for construction & solar. Perforated, hot-dip galvanized, 1. Made of steel and available for widths of 100, 150, 200, 300 and 400mm FastConnect Basket Tray. Push Fit system allows fast connection of the wire mesh tray without the need of fixings.
