

CIF Price of 500kWh Outdoor Communication Power Supply Cabinet Exported to Indonesia

AI Overview

The CIF price for a 500kWh outdoor communication power supply cabinet exported to Indonesia typically ranges from \$45,000 to \$70,000, depending on customization, materials, and shipping terms.

Price Components

- Base Cabinet Cost:** Outdoor telecom cabinets with integrated power systems, battery modules, and thermal management typically cost \$40,000–\$60,000 for high-capacity units like 500kWh. Material choice (galvanized steel vs. stainless steel), IP rating (IP65–IP66), and integrated AC/DC systems influence the base price.
- Customization and Integration:** Custom dimensions, cable entry points, modular racks, and monitoring systems can add \$5,000–\$10,000.
- Optional features** like hybrid cooling, solar integration, or intrusion detection may further increase costs.

Shipping and Insurance (CIF) CIF includes freight and insurance to the port of destination in Indonesia. For a large cabinet, sea freight from China typically costs \$2,000–\$5,000, depending on port, shipping line, and container size. Marine insurance is usually 1–2% of the total cargo value, adding approximately \$500–\$1,000.

Total CIF Estimate Combining base cost, customization, shipping, and insurance, the total CIF price is approximately \$45,000–\$70,000 per unit. Prices may vary based on supplier, order volume, and negotiation of Incoterms.

Supplier Considerations Choose suppliers with proven export experience (5+ years) and high review ratings (≥ 4.8) to ensure quality and timely delivery. Verify IP rating, material thickness, and thermal management to ensure reliability in Indonesia's tropical climate. Confirm export documentation and compliance with Indonesian import regulations, including customs clearance and certification. Negotiate MOQ and lead...
