

Cable tray speaker tee price

AI Overview

Cable tray speaker tee connectors typically range from \$10 to \$50 per piece, depending on material, size, and supplier. Cable tray tee connectors are essential for creating T-shaped junctions in cable management systems, allowing cables to branch off in multiple directions safely and efficiently. The price depends on several factors:

- Material:** Common materials include galvanized steel, stainless steel, aluminum, and fiberglass-reinforced plastic (FRP). Stainless steel and FRP tend to be more expensive due to durability and corrosion resistance.
- Size and Type:** Connectors come in equal or unequal tees to match different tray widths. Larger or heavy-duty tees designed for industrial applications cost more than standard office or light-duty models.
- Supplier and Quantity:** Wholesale suppliers like Alibaba offer bulk pricing, which can reduce the per-unit cost. Retail suppliers such as McMaster-Carr may charge higher prices for single units or expedited delivery.

Estimated Price Range:

- Light-duty or small aluminum/steel tees: \$10–\$20 each
- Medium-duty galvanized steel tees: \$20–\$35 each
- Heavy-duty stainless steel or FRP tees: \$35–\$50 each

For accurate pricing, it is recommended to check supplier listings directly, specify the required material and dimensions, and request quotes for bulk orders if needed. This ensures compatibility with your cable tray system and compliance with installation requirements.
