

Case Study of Industrial Switches in the UAE

AI Overview

The UAE industrial switch market is growing steadily, driven by urbanization, infrastructure development, and demand for advanced, certified switchgear solutions in industrial and commercial sectors. Market Overview The UAE electric switches market is experiencing consistent growth, with a projected CAGR of 6.2% from 2025 to 2031, fueled by rapid urbanization, infrastructure expansion, and adoption of energy-efficient and smart technologies. Industrial demand is particularly strong due to automation requirements and the need for robust electrical systems in production facilities. Government initiatives promoting sustainability and smart city development further accelerate the adoption of advanced switchgear solutions. Key Industrial Switch Manufacturers Delta Electric FZE (DELTASWITCHGEAR & DELTABAR®) Established in 2007 in Sharjah Airport International Free Zone, Delta Electric pioneered in-house production of low-voltage (LV) switchgears and busway systems in the UAE and GCC. Products range from 125A to 2500A for LV switchgear and 800A to 6000A for busway systems, certified by ASTA, DEKRA/UL, and compliant with IEC 60439-1 standards. Approved by major UAE utilities including ADDC, SEWA, DEWA, and FEWA, and integrated with Siemens systems for type-tested panels. Holds ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018 certifications, reflecting high standards in quality, safety, and environmental management. Prime Electrical Manufacturing (PEM) Based in Dubai, PEM provides integrated energy solutions including LV switchgear, power distribution, protection, and control systems. Franchise partnerships with Schneider Electric and Delta Lighting enable access to advanced components like Merlin Gerin, Square D, and Telemecanique. PEM has gained approvals for Dubai Public Works projects and offers intelligent MCCs, main...
