

Data Center PDU42U Three-Year Warranty

AI Overview

The Data Center PDU42U typically comes with a standard three-year warranty, covering defects and offering advanced replacement or limited support depending on the manufacturer. **Warranty Overview** Most major PDU manufacturers provide a three-year standard warranty for their rack-mounted PDUs, including the 42U models: **Eaton:** Offers a 3-year advanced replacement warranty, with shipping covered both ways, ensuring a trouble-free replacement experience. Warranty extensions up to 5 years are available for purchase. **HPE:** Metered and Switched PDUs come with a limited 3-year warranty, automatically assuming the Foundation Care coverage level of any ProLiant server in the same rack. **Panduit:** Standard PDUs include a 3-year warranty, with an option to extend to 5 years, covering premium components and ensuring reliable operation under full load. **CyberPower:** Switched and Monitored PDUs are backed by a three-year limited warranty, while basic and metered PDUs may offer lifetime coverage for certain models. **Key Features of the Warranty** **Coverage:** Typically includes defects in materials and workmanship. Some manufacturers provide advanced replacement, meaning a replacement unit is shipped before the faulty unit is returned. **Support:** Many warranties include technical support for installation, configuration, and troubleshooting. For example, HPE PDUs integrate with server support services for lifecycle management. **Extension Options:** Several manufacturers allow warranty extensions up to 5 years, providing longer-term protection for critical data center infrastructure. **Manufacturer-Specific Benefits:** Some PDUs, like Panduit's, include enhanced security features, hot-swappable controllers, and real-time monitoring, which are supported under the warranty. **Practical Considerations** When selecting a PDU42U for your data center, consider: W...
