

Distribution Box Panel Labels

Overview

Sticky Labels or Pre-Printed Circuit Labels: Durable and legible labeling is key. Avoid masking tape, which can peel off or fade. Notepad or Digital Note App: To keep track of circuits as. The AIMO M550 is a professional electrical panel label printer that prints on three types of consumables: Why the M550 is ideal for panel labeling: Terminal blocks need clear identification for every connection point. The M550 prints PVC tube markers that slide directly onto wires before. Uses breakers or fuses to stop too much current. This helps prevent electrical dangers. Shares power between circuits to stop overloads. Just create labels, download the PDF-file, print and stick on panel. Before you label. Complete set for optimal organisation: you will receive 4 labelling sheets: 2 sheets in the format 30 x 10 cm and 2 sheets in the format 8 x 4 cm. Ideal for clear labelling of fuse boxes, distribution boxes and control cabinets - for maximum overview in the home or business. Neutral and Ground Bars: Connection points for white (neutral) and bare/green (ground) wires.
