

Eastern European ABS pigtail channel

Overview

ABS channel available in various versions for housing the grating: without edge rails, with ABS edge rails or with metal edge rails, complying with the UNI EN 1433 standard. The channels are sold exclusively in complete pallets and together with the gratings. ABS is an acronym identifying a family of thermoplastic materials. The acronym derives from the three monomers used in producing ABS, namely acrylonitrile, butadiene and styrene. The Plastic Fly Series ABS drainage channels manufactured by Gridiron are renowned for their excellent mechanical. The content on this website is protected by copyright.
