

Eastern European Trough-Type Cable Tray Brands

AI Overview

Key Eastern European brands for trough-type cable trays include DKC Europe, Niedax Group, and Spina Group, offering steel, aluminium, and GRP systems compliant with European standards. DKC Europe is a leading European supplier of cable tray systems, providing a comprehensive range of trough-type, ladder, and perforated cable trays for civil and industrial infrastructures. Their products are designed for energy protection, transport, and distribution, and are widely used across Europe in both industrial and commercial projects. DKC emphasizes compliance with European standards and offers technical support for installation and system design. Niedax Group The Niedax Group, headquartered in Germany, operates extensively across Europe and offers steel, aluminium, PVC, and GRP cable management systems, including trough-type cable trays. Their portfolio includes specialized subsidiaries such as Rico Engineering for complex industrial projects and Spina Group for customized solutions in oil, gas, and infrastructure sectors. Niedax products are designed for high mechanical resistance, corrosion protection, and long-term performance, with full technical consulting and installation support. Spina Group Spina Group, part of the Niedax Group, manufactures industrial cable trays including ladder, perforated, and closed-bottom types suitable for heavy-duty applications. Their trough-type cable trays are available in stainless steel, galvanised steel, and aluminium, with standard widths like 300 mm and custom sizes. Spina Group emphasizes ventilation, thermal expansion management, and electrical continuity, ensuring safe and durable cable routing in demanding environments. Accessories such as elbows, junctions, and covers are fully compatible with their tray systems. Additional Considerations Materials: Steel, aluminium, and GRP are commo...
