

Factory Cable Tray Styles and Prices

AI Overview

Cable trays come in ladder, perforated, solid-bottom, wire mesh, and channel styles, with prices varying by material, size, and load capacity.

Common Cable Tray Styles

- Ladder Cable Trays** Designed for heavy-duty applications, ideal for industrial, oil, gas, and renewable energy sectors. Features two side rails connected by rungs, allowing excellent ventilation and easy cable support. Materials: galvanized steel, stainless steel, aluminum, or fiberglass.
- Perforated Cable Trays** Solid base with perforations for ventilation and drainage. Suitable for medium loads and environments where some protection is needed.
- Solid-Bottom Cable Trays** Fully enclosed base for maximum protection against dust, moisture, or debris. Common in sensitive electrical or control systems.
- Wire Mesh (Basket) Cable Trays** Lightweight, flexible, and open mesh design. Popular in data centers and telecom facilities for easy cable routing and cooling.
- Channel Cable Trays** U-shaped or channel-like structure for light cable loads. Compact and cost-effective, suitable for short runs or confined spaces. All these trays can be mounted on walls, ceilings, or underfloor systems, and are designed to support power, control, telecommunication, and fiber optic cables efficiently.

Materials and Finishes

- Galvanized Steel:** Corrosion-resistant, suitable for indoor and outdoor use.
- Stainless Steel:** High durability, ideal for harsh environments.
- Aluminum:** Lightweight and corrosion-resistant, often used in commercial installations.
- Fiberglass (FRP):** Non-conductive, corrosion-resistant, suitable for chemical or wet environments.

Pricing Overview

- Light-Duty Trays:** Typically 50mm–100mm wide, 1–3 meters long, priced around \$20–\$50 per meter depending on material and finish.
- Medium-Duty Trays:** Wider and thicker, suitable for moderate cable loads, priced around \$50–\$120 per meter.
- Heavy-Duty/Ladder Trays:** Designed for industrial applications, can range from \$100–\$300 per meter, with hot-dipped galvanized or stainless steel options costing more.
