

Fiber optic cable price eight cores

AI Overview

The price of 8-core fiber optic cables typically ranges from \$0.50 to \$6 per foot, depending on type, construction, and application.

Pricing Overview

For materials only, 8-core fiber optic cables generally cost:

- Single-mode fiber: approximately \$0.50 per foot for standard indoor cables, with outdoor or armored versions costing up to \$5-\$6 per foot.
- Multimode fiber: slightly higher, ranging from \$0.50 to \$1 per foot for standard cables, with armored or figure-8 outdoor cables costing more.

Wholesale bulk purchases can reduce costs to \$0.09-\$1.52 per foot, while retail prices for pre-terminated or specialty cables are higher due to factory termination and connector types.

Types and Applications

Figure-8 self-supporting outdoor cables (e.g., GYTC8S) are designed for aerial installation, duct, or buried methods. They feature stranded loose tubes, steel-wire strength members, and water-blocking systems, providing excellent mechanical and environmental performance.

Standard outdoor 8-core cables (e.g., GYXTW) are suitable for long-distance single-mode transmission and can be used in aerial or duct installations.

Indoor riser or plenum-rated cables are less expensive but not suitable for harsh outdoor conditions.

Factors Affecting Price

Fiber Type: Single-mode is cheaper per foot than multimode, but requires more expensive equipment.

Cable Construction: Armored, plenum-rated, or figure-8 self-supporting cables cost more due to enhanced durability and installation flexibility.

Installation Method: Underground or direct-burial cables are more expensive than aerial or indoor runs.

Length and Quantity: Bulk orders reduce per-foot cost significantly.

Example Prices

- 8-core GYTC8S figure-8 armored outdoor cable: typically \$2-\$5 per foot depending on supplier and specifications.
- Indoor 8-core single-mode cable: around \$0.50-\$1 per foot for standard riser-rated cables.
- High-count or pre-terminated assemblies: can exceed \$6 per foot due to factory termination and connector type.

In summary, expect to pay between \$0.50 and \$6 per foot for 8-core fiber optic cab...
