

Fiber optic cable structure price

AI Overview

Fiber optic cable prices typically range from \$0.05 to \$1.50 per meter, depending on type, fiber count, and installation requirements. Typical Price Ranges The cost of fiber optic cables varies widely based on cable type, fiber count, and environmental rating. General pricing estimates are:

- Simplex/Duplex Indoor Cable: \$0.05 – \$0.30 per meter
- Single-mode Outdoor Cable: \$0.10 – \$0.50 per meter
- Multimode (OM1/OM2/OM3): \$0.10 – \$0.60 per meter
- Armored Cable (Steel Tape/FRP): \$0.30 – \$1.00 per meter
- Aerial/Self-Supporting Cable: \$0.40 – \$1.50 per meter

For retail or smaller purchases, prices can range from \$1 to \$6 per foot, with higher costs for pre-terminated assemblies or high fiber-count cables, such as 288-strand backbones reaching \$6 per foot or more (bulk wholesale prices are lower).

Factors Affecting Cost

- Fiber Count and Construction:** Higher strand counts (e.g., 24-core vs. 2-core) increase material costs. Armored or loose-tube constructions add 20-50% to the price.
- Jacket Material and Environmental Rating:** Indoor PVC or LSZH jackets are cheaper, while outdoor PE or UV-resistant jackets for aerial or direct-buried installations cost more.
- Fiber Type:** Single-mode fiber is generally cheaper per foot than multimode fiber, but multimode may require less expensive equipment for short distances.
- Installation Complexity:** Labor for trenching, splicing, and termination can account for 60-80% of total project costs. Pre-terminated cables reduce field labor but increase upfront material costs.
- Regional and Project Factors:** Urban areas may have higher permit and labor costs, while rural areas may incur higher delivery or logistics expenses.

Installation Cost Examples

- Indoor short run (1,000 ft single-mode): Cable \$0.40/ft, labor \$1.00/ft, total ≈ \$2,650–\$3,100
- Outdoor mid-range (2,000 ft with conduit, 4 terminations): Cable \$0.70/ft, labor \$1.60/ft, total ≈ \$4,940–\$6,120
- Premium outdoor (5,000 ft armored, multiple splices): Cable \$1.00/ft, labor \$3.00/ft, total ≈ \$11,000–\$14,500
