

Fiber optic connector price quote

AI Overview

Fiber optic connector prices typically range from \$1 to \$20 per connector, depending on type, fiber count, and pre-termination. Typical Price Ranges Standard connectors (SC, LC, ST, FC): \$1 to \$5 per connector for single-mode or multimode types purchased individually or in small quantities. Pre-terminated patch cords or assemblies: \$5 to \$20 per connector, depending on fiber count, length, and factory termination quality. High-density or multi-fiber connectors (MPO/MTP): \$10 to \$20 per connector, often used in data centers or backbone networks. Bulk or wholesale purchases: Prices can drop 20-40% when buying in large quantities directly from manufacturers or authorized distributors. Factors Affecting Connector Costs Connector Type: SC, LC, ST, FC, MU, E2000, MPO/MTP, and others vary in complexity and demand, influencing price. Fiber Mode: Single-mode connectors generally cost slightly more than multimode due to tighter tolerances and higher performance requirements. Polishing Style: PC (Physical Contact), UPC (Ultra Physical Contact), and APC (Angled Physical Contact) affect insertion loss and return loss, with APC connectors typically costing more. Pre-Termination vs Field Termination: Factory-terminated connectors and patch cords are more expensive than field-installable connectors due to labor and quality control. Number of Fibers: Multi-fiber connectors like MPO/MTP or assemblies with multiple strands increase cost per connector. Environmental Ratings: Connectors with ruggedized or outdoor-rated jackets (LSZH, OFNR, OFNP) may add to the price. Buying Tips Compare multiple suppliers to ensure competitive pricing and quality. For large projects, consider pre-terminated assemblies to reduce installation time and labor costs. Check compatibility with existing patch panels, transceivers, and network equipment to avoid costly mismatches. Factor in shipping and handling, especially for bulk orders or specialized connectors. By understanding these factors, you can estimate fiber optic connector...
