

Film Roller Distribution Box Manufacturer

AI Overview

Leading manufacturers of film rollers and distribution systems include INOMETA, Finzer Roller, SCM Handling, and Alum-a-Lift, offering precision rollers and customized roll handling solutions for the film and flexible packaging industry. Key Manufacturers and Offerings

INOMETA specializes in high-performance rollers made from aluminum, CFRP, and GRP, serving industries such as film, paper, printing, and packaging. They provide rollers up to 15 meters in length and 2 meters in diameter, with tight tolerances of 15 μm . INOMETA also offers custom-designed rollers, functional coatings, and comprehensive maintenance and reconditioning services, making them a top choice for precision and durability in film distribution systems.

Finzer Roller has been supplying precision rollers for film and flexible packaging since 1968. Their product range includes rubber and polyurethane rollers, Flex-Spreader™ rolls, bow rolls, backup brushes, flattening brushes, and pin perforating equipment. These rollers are designed to maintain optimal speeds in metalizers, coaters, and laminators, ensuring smooth film handling and distribution.

SCM Handling focuses on automated roll handling systems for paper, film, foil, and flexible packaging. Their solutions are tailored to specific industry requirements, providing automated distribution, lifting, and transport of rolls within production lines. SCM Handling emphasizes customization to handle different roll sizes and weights efficiently.

Alum-a-Lift offers a wide range of roll handling equipment, including roll lifts, inverters, manipulators, and carts. Their systems are designed for precise manipulation of rolls, core shafts, dies, and slitters. Alum-a-Lift provides both standard and custom solutions, with powered modules, counterbalanced lifts, and quick-change components to accommodate heavy or dynamic loads. Their global network ensures support and service for industrial applications.

Considerations for Selection When choosing a manufacturer for film roller distribution boxes, consider Material and Co...
