

Galvanized Cable Tray Thickened Specifications and Prices

AI Overview

Thickened galvanized cable tray supports in India typically range from ₹16 to ₹30 per piece, depending on size and height. Pricing Overview The cost of galvanized cable tray supports varies based on height, thickness, and type of support. For example, coupler plates with hardware for 25/50 mm height cable trays are priced around ₹16 per piece, while supports for 75/100 mm height trays can cost ₹30 per piece (prices are ex-stock and subject to GST). These prices are indicative for standard steel supports used in electrical installations. Factors Affecting Price Material Thickness: Thicker steel or heavy-duty galvanized supports generally cost more due to increased material usage and durability. Tray Height and Width: Larger or taller cable trays require stronger supports, which increases the price. Type of Galvanization: Hot-dip galvanized supports are more corrosion-resistant and slightly more expensive than pre-galvanized options. Quantity and Supplier: Bulk orders often reduce per-piece cost, and prices may vary between suppliers across India. Supplier Options TradeIndia and IndiaMART list multiple manufacturers and suppliers of cable tray supports, allowing buyers to compare prices and specifications. M.G. Cable Industries provides detailed price lists for coupler plates and supports, with delivery options in Mumbai and surrounding areas. Unitech IKK offers a range of galvanized supports in various thicknesses (1.0 mm to 2.0 mm) and complies with international standards, suitable for both indoor and outdoor installations. Recommendation For thickened galvanized supports, it is advisable to request a quotation from multiple suppliers, specifying the tray height, thickness, and quantity to get the most accurate pricing. Additionally, consider GST and delivery charges, which may affect the final cost.
