

High-density modular data center in Ukraine

Overview

It is the only data center in Ukraine having a modular structure. Each module is a physically separated domain connected to a joint energy distribution and microclimate support systems. In 2017, an international security mission operating in Ukraine needed a reliable IT backbone to support time-boxed operations. Save the trouble of contacting the providers yourself, check out our Quote Service. With a focus on innovative and efficient energy management, the company serves multiple sectors. Extreme LTD produces ready-made modular data centers which ensure the operation of IT equipment according to the required levels of availability, controllability and security, and also guarantees prompt delivery to the place of installation or transportation between several sites of the customer.

Meet Smartstack™, the High-Density AC-based Energy Storage Platform with a Breakthrough Modular Design Backed by Fluence's industry-leading project

Data center industry news, analysis, and opinion

DatacenterDynamics is the world's largest data center publication. We publish news, magazine features, and podcasts about the hyperscale &

First Mobile Data Center in Ukraine

The system, made in the dimensions of a standard 40-foot ISO container, contains ten server cabinets and has an IT load of 70 kW. Two high-density cabinets are designed to accommodate equipment up

Deployable Edge Modular Data Center for Field Missions

Rugged modular data center deployed in Eastern Europe to support secure field operations. Rapid setup, redundant power, and continuous availability in demanding environments.

Micro Data Centers Market Size, Share & CAGR 14.2%

Micro Data Centers Market shows USD 9.1 Bn in 2026 and USD 31.8 Bn by 2035 with CAGR 14.2%, driven by edge computing.

Earth-Based Data Centres vs. Space-Based Data Centres: A holistic ...

Abstract As global data demands escalate with Artificial Intelligence, Big-Data, and cloud computing, the feasibility of Space-Based Data Centres (SBDC) as a complementary infrastructure to

Data center

De Novo offers colocation in one of the largest data centers in Ukraine of TIER III compliance level. It is the only data center in Ukraine having a modular structure.

Characteristics of De Novo data centers

DC-1 is the only data center in Ukraine built on a modular basis. Each module is a physically limited volume, which consists of separate shielded cameras connected to the engineering infrastructure.

BladeRoom Data Centres | Efficient Data Centres Built

BladeRoom Data Centres is part of BRG Technologies, which has over 30 years' experience providing innovative, high technical content, factory built, mission

Ukraine Data Centers

We currently have 36 data centers listed, from 8 markets in Ukraine (Ukrayina). Click on a market below, to explore its data center locations. Save the trouble of contacting the providers yourself, check out

Ukraine Modular Data Center Market (2025-2031)

Market Forecast By Functional module solution (All-in One Functional Module, Individual Functional Module), By Service (Infrastructure Management, Integration & Deployment, Consulting), By Industry
