

High-quality fiberglass cable tray models

AI Overview

Top fiberglass cable tray manufacturers include ALOIS Composites, Oglaend System Group, Enduro Composites, Friedrichs, Hallas Fiberglass, and Monterra International, each offering high-quality, corrosion-resistant solutions for industrial and commercial applications.

Leading Manufacturers and Their Strengths

ALOIS Composites is a premier European producer known for high-quality pultruded fiberglass trays designed for corrosive environments, chemical plants, offshore platforms, and power utilities. Their trays combine strength with minimal weight, reducing installation time and costs.

Oglaend System Group is a global leader supplying fiberglass trays to oil & gas, marine, and industrial sectors. Their products are engineered for extreme conditions, offering superior corrosion resistance and fire retardancy, which minimizes maintenance downtime.

Enduro Composites dominates the North American market, providing trays with exceptional dielectric properties and high strength-to-weight ratios, ideal for high-voltage applications and coastal installations where galvanic corrosion is a concern.

Friedrichs specializes in trays for harsh environments such as chemical processing, wastewater treatment, and oil & gas. They offer various styles and sizes, emphasizing safety and performance.

Hallas Fiberglass manufactures lightweight yet robust trays that meet rigorous industry standards, offering both off-the-shelf and custom solutions for residential, commercial, and industrial projects.

Monterra International provides FRP (Fiberglass Reinforced Plastic) trays with strong structural integrity, high safety factors, and resistance to chlorine, sulfur, and saltwater environments. Their solutions are versatile for industrial applications and designed for harsh environmental conditions.

Considerations for Choosing a Manufacturer

Environment: Select trays resistant to chemicals, saltwater, or high temperatures if used in industrial or offshore settings.

Load Capacity: Ensure the tray supports the required static and dynamic ca...
