

How much does a fiber optic cable bundling device cost

AI Overview

Fiber optic cable bundling devices range from around \$110 for handheld kits to over \$12,000 for fully automatic industrial machines. Handheld and Small-Scale Tools For smaller or portable applications, fiber optic tool kits and basic bundling devices are available for \$109 to \$303. These kits often include strippers, cleavers, and small attachment tools suitable for fieldwork or light installations (eBay, Amazon). Mid-Range Bundling Machines Compact devices like the Fiber Optic Cage for spool-less cable bundles are priced around \$945, designed to pull, store, and transport fiber optic cables efficiently without a dedicated spool (Spoolmaster). Fully Automatic Industrial Machines For large-scale or industrial use, fully automatic cable cutting and bundling machines are significantly more expensive. Prices range from \$12,000 to \$12,600 per unit, offering features like automatic feeding, cutting, coiling, and tying of fiber optic cables with high precision and minimal operator intervention (TechTide, Made-in-China). Summary of Price Ranges Handheld/Field Kits: \$109 – \$303 Mid-Range Bundling Devices: \$447 – \$945 Fully Automatic Industrial Machines: \$12,000 – \$12,600 When selecting a device, consider the scale of your installation, automation needs, and whether you require portability or high-volume production. Handheld kits are suitable for small projects, while fully automatic machines are ideal for manufacturing or large deployment operations.
