

How much does armored 24-core optical cable cost

AI Overview

A 24-core armored optical cable typically costs between \$1.15 and \$6.50 per meter, depending on fiber type, armor, and material quality.

Price Range and Factors

The cost of a 24-core armored optical cable varies based on several factors:

- Fiber Type:** Single-mode (OS2) cables are generally cheaper, ranging from \$0.09 to \$1.52 per foot, while multimode (OM3/OM4) cables are more expensive, typically \$1.50 to \$6.00 per foot due to higher manufacturing standards and performance requirements.
- Armor:** Armored cables, which include steel tape or corrugated protection, add to the cost. Prices for armored cables range from \$1.15 to \$6.50 per meter.
- Jacket Material:** LSZH (Low Smoke Zero Halogen) jackets are more expensive than standard PVC, increasing the price by 25–40% but providing better safety and environmental performance.
- Manufacturer and Quality:** Premium brands like Corning offer higher-quality glass with lower attenuation, which increases cost, while generic fibers are cheaper but may have higher signal loss.

Example Pricing

CST 24-core OM4 armored multimode cable: Sold per meter, cut to order, compliant with RoHS standards. Exact price depends on the quantity ordered and customization.

Alibaba suppliers: Offer 24-core armored outdoor cables for FTTH and aerial use, with CE/ROHS certification. Prices vary widely depending on supplier and shipping.

Bulk Orders: Direct manufacturers often provide volume discounts and custom configurations, which can reduce the per-meter cost significantly.

Summary

For budgeting purposes, you can expect a 24-core armored optical cable to cost roughly \$1.15–\$6.50 per meter, with higher-end prices for OM4 multimode, LSZH jackets, or premium glass. Ordering in bulk or directly from manufacturers can reduce costs, while cheaper options may compromise durability or signal quality. Always confirm specifications like fiber type, armor, and jacket mater...
