

How much does fiber optic splicing cost per core 2 yuan

Overview

Summary of the Answer: The fiber optic cable splicing price typically ranges from \$50 to \$300 per splice, depending on the method used and the labor involved. For most commercial projects, expect to pay \$50-\$150 per fusion splice point - but that number can swing in either direction based on the factors below. The "per splice" rate is the most. "How much does 1km of 24-core outdoor fiber cable cost?"

" This is the most common question our sales team receives at Wolon. It sounds simple, but if you have searched online, you know that finding a static fiber optic cable price list is almost impossible. Most websites just say "Contact us. " Why?

This price is fixed unit cost. 00 per Enclosure Point Travel/Mobilization - Travel/Mobilization will not be charged if the labor for each trip/phase exceeds the minimum labor work as indicated below. If the minimum labor work figured is not met, then, I usually bill T&M, but it works out to about \$175-250 for setup/teardown per site and \$4-7 per fiber for prep in a new tray in an existing case and splicing depending on if it's flooded or dry cable. Understanding these factors can help businesses and individuals budget effectively for fiber optic.
