

# How to connect fiber optic cable to a Xiaomi router

## AI Overview

You connect a fiber optic cable to a Xiaomi router by first linking it to an Optical Network Terminal (ONT) and then connecting the ONT to the router's WAN port using an Ethernet cable.

**Step 1: Prepare Your Equipment**

- Fiber optic cable:** Usually yellow with SC/APC or SC/UPC connectors. Handle carefully to avoid dirt or damage.
- Optical Network Terminal (ONT):** Provided by your ISP; converts optical signals to electrical signals.
- Xiaomi router:** Ensure it has a WAN port for Ethernet input.
- Ethernet cable:** Cat5e or Cat6 recommended for optimal speeds.

**Step 2: Connect the Fiber Cable to the ONT**

Locate the fiber wall outlet where your ISP's fiber line enters your home. Remove protective caps from both the fiber cable and the ONT's optical port. Align the connector key and gently insert the fiber cable into the ONT until it clicks securely. Power on the ONT and wait for the status lights to stabilize, indicating a successful connection to the ISP network.

**Step 3: Connect the ONT to the Xiaomi Router**

Use an Ethernet cable to connect the ONT's LAN or Ethernet output port to the WAN port on your Xiaomi router. Power on the router and wait for the indicator lights to confirm a successful connection. The WAN light should turn solid, showing internet access is active.

**Step 4: Configure the Router**

Access the Xiaomi router's web interface (usually at 192.168.31.1) or via the Mi Wi-Fi app. Follow the setup wizard to configure your internet connection. Most ISPs support automatic configuration, but you may need to enter PPPoE credentials if required. Optionally, enable Wi-Fi settings, QoS, or parental controls for optimal performance.

**Tips for Safe and Reliable Setup**

- Keep the ONT and router in a dry, ventilated area near a power outlet.
- Avoid bending or touching the fiber cable's glass connector.
- If your Xiaomi router has a dedicated SFP or optical port, you may connect the fiber directly using a compatible module, bypa...
