

How to set up a Keyence fiber optic sensor

AI Overview

To set up a Keyence fiber optic sensor (FS-N11CN), follow these steps:

- Mounting:** No tools are necessary for setup. Ensure the sensor is mounted securely in the desired location.
- Wiring:** Connect the sensor to the appropriate power supply and output devices as per the specifications in the manual.
- Configuration:** Adjust the settings on the sensor using the built-in display to match your application requirements.
- Testing:** After setup, test the sensor to ensure it is functioning correctly and making necessary adjustments as needed.

For a visual guide, you can refer to the video on how to set up the Keyence fiber optic teach sensor. For more detailed instructions, you can visit the Keyence support page.
