

Imported Data Center Rack IP67

Overview

An IP67-rated 19-inch metal enclosure rack is a high-performance housing solution designed to protect sensitive electronic and industrial equipment from dust, water immersion (up to 1 meter for 30 minutes), and harsh environmental conditions. IP67 Enclosures & Racks are available at Mouser Electronics. Established in 2005, the company is a custom function factory integrating R&D, design, production and sales. These enclosures are widely used in data centers. Box products are used to contain or enclose materials or equipment in a variety of contexts; plastic or metallic boxes suitable for constructing enclosures for electronic equipment such as guitar pedals, equipment cases for transporting tools or equipment, console style enclosures convenient for. Shengen's IP67 enclosures offer superior sealing, verified by UL Listing. Made from high-quality materials, they protect entirely against dust and water immersion.
