

Iranian Explosion-proof Distribution Box Manufacturers

AI Overview

GITCO and Dossena are leading Iranian manufacturers of explosion-proof distribution boxes and electrical enclosures for hazardous areas. GITCO (Ghadr Industrial Turbines Co.) GITCO produces a wide range of explosion-proof electrical enclosures suitable for hazardous zones 0 and 1. Their products are made from stainless steel or mild steel and are certified by ATEX for increased safety and intrinsic safety standards. The enclosures can be supplied empty or pre-fitted with components, and are available in over 80 sizes, supporting high-voltage applications up to 11 kV. They are designed to operate in ambient temperatures from -30°C to $+65^{\circ}\text{C}$, making them suitable for industrial, oil, gas, and chemical environments. Dossena (Doran Sepanj Nadin Company) Dossena specializes in electrical equipment and components, including junction boxes and cable protection systems. With over 25 years of experience, the company provides solutions for industrial and commercial applications. While their focus is broader, they offer customizable electrical enclosures and distribution boxes that can be adapted for explosion-proof requirements in hazardous areas.

International Brands with Regional Presence Warom is an international manufacturer that supplies explosion-proof distribution boxes, control equipment, and lighting. They comply with IEC, ATEX, and IECEx standards and have a regional hub in the Middle East, including Iran, offering customization, assembly, and after-sales support. While not exclusively Iranian, their local presence ensures availability and technical support for Iranian clients.

Key Considerations When selecting an explosion-proof distribution box manufacturer in Iran, consider:

- Certification: ATEX, IECEx, or local equivalents for hazardous area compliance.
- Material: Stainless steel or mild steel for durability and corrosion resistance.
- Customization: Ability to supply empty enclosure...
