

Is the mesh cable tray certified

Overview

The UL Classified E547796 certification is issued uniformly for both the wire mesh trays and their coupling accessories. This ensures technical compatibility across the entire system—verified by one of the most rigorous organizations in the world. Founded in 1926 and headquartered in Virginia, NEMA develops hundreds of technical standards that improve safety, efficiency, and. Understanding NEMA BI 50015 NEMA BI 50015 is a standard specifically designed for wire mesh cable tray systems, part of the broader category of Metal Cable Tray Systems. With over 142,000 miles installed globally, engineers and contractors rely on its tested performance, certified safety, and installation speed. It is the first joint effort of NEMA and CSA International to put in one place standards for metal trays per both NEMA and CSA methods.
