

Jamaican Aerial Optical Cable Manufacturer

AI Overview

Several Jamaican companies specialize in the supply, installation, and maintenance of aerial optical cables, including TELiCON Group, CB Cabling Technologies, TCP, and Caribel. Key Companies TELiCON Group provides comprehensive telecommunication services, including fiber optic network installation and IT infrastructure solutions. They offer design, installation, and maintenance for voice, data, video, and wireless systems, making them a full-service provider for aerial and other fiber optic cabling needs in Jamaica. CB Cabling Technologies Ltd specializes in structured network cabling and fiber optic solutions for various sectors, including government, financial institutions, BPOs, and educational institutions. They supply and install indoor and outdoor ICT infrastructure, including aerial fiber optic cables, and provide certification to ensure compliance with performance standards. Traffic Control Products Company Limited (TCP) focuses on fiber optic networks for traffic control and wireless systems. They provide professional fiber optic installation, testing, and maintenance services, including high-speed connectivity solutions suitable for aerial deployment. Caribel supplies, installs, terminates, and certifies single-mode and multi-mode fiber optic cables. They also provide ongoing service, repair, and rental of communication equipment, making them a reliable option for aerial optical cable projects. Services and Capabilities Aerial and underground fiber optic installation Network design and infrastructure planning Certification and testing of fiber optic systems Maintenance and repair services Support for single-mode and multi-mode fiber cables Integration with IT, security, and wireless systems These companies collectively cover the full lifecycle of fiber optic deployment, from supply and installation to ongoing maintenance, making them suitable partners for businesses or government projects...
