

Lebanese underground fiber optic cable manufacturer

AI Overview

Key Lebanese manufacturers and suppliers of underground fiber optic cables include Fiber Works & Communications (FWC), IMATEL S.A.R.L., OptiLink, and Tele-Projects. Fiber Works & Communications (FWC) S.A.R.L. FWC is a prominent Lebanese company specializing in fiber optic solutions for high-speed and wide-area networks. They provide European and American fiber optic products and subcontract to major contractors, including OGERO and the Ministry of Telecommunications. FWC actively supports Lebanon's FTTX infrastructure projects and offers system integration, connectivity solutions for data and voice, and certified engineering services for public and enterprise projects. IMATEL S.A.R.L. Founded in 1986, IMATEL is a leading telecommunication provider in Lebanon. They supply fiber optic cables, telephony systems, networking, and security solutions. IMATEL serves both enterprise and public sectors, offering a range of low-voltage and industrial cabling solutions, making them a key player in underground fiber optic deployment. OptiLink OptiLink focuses on optical transceivers and fiber optic equipment, including SFP, SFP+, QSFP28, and GPON modules. While primarily a supplier rather than a manufacturer, they provide tested and certified fiber optic cables compatible with major networking brands like Cisco, Huawei, and MikroTik. OptiLink supports ISPs, data centers, and enterprises across Lebanon and the Middle East, ensuring fast local delivery and technical support. Tele-Projects Established in 1983, Tele-Projects represents multinational telecom brands in Lebanon and supplies fiber optic connectivity solutions to contractors and government projects. They provide system integration and support for Lebanon's telecom infrastructure, including underground fiber optic networks, working closely with OGERO and the Ministry of Telecommunications. Ad...
