

Lebanon Single-Core Optical Cable

Overview

50m SC/APC fiber optic drop cable, 1 core, with self-support design. Best for home and commercial installations across Lebanon. Founded to bring enterprise-grade fiber connectivity to Lebanon and the broader Middle East at prices that make sense. OptiLink was built on a simple belief: world-class fiber infrastructure. Fiber optic patchcords are the short, pre-terminated cables that connect your SFP modules to patch panels, OLTs to splitters, and ONTs to wall outlets. Choosing the wrong connector type, polish, or length wastes time and money — and in Lebanon, where fiber deployments are accelerating across. Generally, the US region can be shipped from local warehouses and other countries are shipped from China. Special low-bend-sensitivity fiber provides high bandwidth and excellent communication transmission property.
