

Lebanon butterfly-shaped drop fiber optic cable

Overview

The invention belongs to the technical field of optical fiber cables, and particularly relates to a butterfly-shaped drop cable which comprises an optical fiber, a pair of reinforcing parts symmetrically distributed on the upper side and the lower side of the optical fiber . The invention belongs to the technical field of optical fiber cables, and particularly relates to a butterfly-shaped drop cable which comprises an optical fiber, a pair of reinforcing parts symmetrically distributed on the upper side and the lower side of the optical fiber . FTTH Butterfly Optic Cables are specifically designed to meet the growing demand for high-speed fiber-to-the-home deployments. Their flat, butterfly-shaped structure combines optical fibers with strength members, making them ideal for indoor wiring, drop cable installations, and last-mile network. Founded to bring enterprise-grade fiber connectivity to Lebanon and the broader Middle East at prices that make sense. OptiLink was built on a simple belief: world-class fiber infrastructure. Fiber Works & Communications (FWC) S. has been participating in the Lebanese enterprise market for several years now, attaining an honorable reputation of FIBER OPTIC Expertise when it comes to high speed & wide area networks. Their compact design helps optimize space while maintaining optimal data transmission speeds. Audio-Visual Systems: In home theaters and professional audio.
