

Molded cable tray order price

AI Overview

Molded plastic cable trays typically range from \$2 to \$25 per meter, depending on material, design, and order quantity.

Price Overview The cost of molded cable trays varies widely based on material, type, size, and supplier. Plastic trays are generally more budget-friendly than metal options, making them suitable for light to medium load applications in industrial, commercial, and infrastructure environments. The average price per meter for cable trays, including plastic types, ranges from \$2 to \$25, with bulk orders often reducing the per-unit cost.

Factors Affecting Price

Material: Molded plastic is lightweight and corrosion-resistant, while metal trays (galvanized steel, stainless steel, aluminum) are more expensive but support heavier loads.

Design: Ladder-like, solid-bottom, or perforated trays influence cost. Ladder trays provide structural strength for heavy cables, while perforated trays balance ventilation and protection.

Order Quantity: Bulk purchases can significantly lower the price per meter, especially for large-scale projects.

Supplier and Brand: Prices vary between B2B suppliers (e.g., Alibaba) and B2C platforms (e.g., Amazon), with B2B bulk orders often offering better value.

Additional Costs: Shipping, installation, and any customizations (length, coating, or color) can add to the total order price.

Typical Use Cases

Industrial plants and data centers: Ladder or perforated molded trays for medium-to-high-density cable installations.

Outdoor or chemical environments: Solid-bottom molded trays for maximum protection against environmental hazards.

Commercial buildings and HVAC systems: Perforated trays for balanced ventilation and cable protection.

Cost-Saving Tips

Buy in bulk to reduce per-meter cost. Select plastic trays for lighter loads to save compared to metal alternatives. Compare suppliers and request quotes for custom sizes or coatings. Plan orders ahead of peak construction seasons to take advantage of promotions.

In summary, expect molded plastic cable trays to cost between \$2 and \$25 per meter, with the final price influenced by...
