

Multimode armored optical cable models for outdoor use

Overview

The armored fiber optic cables come in single mode and multimode categories like OM1, OM2, OM3 and OM4. Our Pre-Terminated Armored Multimode Fiber Optic Cables are designed for optimal performance and reliability in outdoor applications. Featuring high performance Corning® glass multimode fiber with low insertion loss (IL) and return loss (RL), and LC connectors, our cables offer fast, reliable data. Armored Fiber Optic Cable, sometimes referred to as MC Fiber Cable or BX Fiber Cable, is optimized to protect your fiber cable, avoiding any and all unnecessary network downtime as a result of outside interferences. These cables are specially engineered to withstand harsh outdoor environments—whether buried underground or installed overhead—where ordinary cables may fail. In this modern day and age, the consequences of light attenuation, which could. Industrial-grade outdoor fiber optic cables with armor protection. Multiple configurations for long-distance transmission.
