

New T-Connector for Cable Trays

Overview

Our high-quality T-piece connectors for cable trays provide stable, horizontal branches in every cable support system. Cable tray fitting accessories, also known as cable tray accessories, are a wide range of components used to connect, support, or change the direction of matched cable trays. A cathodic action occurs on cut surfaces (up to 1.5mm) that protects against oxidation. First, the steel is chemical cleaned and roughened in order to achieve a good bond. After the dipping process, the surplus zinc is blown off and one obtains an extra. For ease of installation and accessibility, lay cable and hose in trays instead of pulling it through conduit or raceway. Technical Information Catalogue for cable trays, mesh cable trays, cable. Industrial installations Cable support systems and connection and fastening systems for industry and construction project infrastructure Building installations Cable routing and underfloor systems for administrative and functional buildings including architectural solutions Safety and protection. Fittings, cable trays, plug connection - T pieces, plug connection.
