

New Zealand local manufacturer of fiberglass cable trays

AI Overview

Eaton's B-Line series and local suppliers like FDG Cable Tray and USL Multistrut provide fiberglass cable tray solutions suitable for New Zealand conditions. Eaton Fiberglass Cable Trays Eaton offers fiberglass cable trays designed for harsh, caustic, and marine environments, making them ideal for industrial, coastal, and vertical installations. Their B-Line series Marine Rung allows stainless steel banding of cables to meet coast guard and marine standards, and the trays provide a 2-inch cable support surface. Eaton also provides a CAD/BIM submittal catalog for easy selection of straight sections, fittings, and accessories, which is useful for engineering and design planning. Local New Zealand Suppliers FDG Cable Tray: Offers a wide range of cable trays, ladders, and baskets, including modular systems that can be customized and powder-coated. While primarily focused on steel and galvanised trays, FDG provides versatile solutions for cable support and can accommodate custom requirements. USL Multistrut: Specializes in electrical and mechanical support systems for New Zealand conditions, including cable trays. They provide design flexibility, engineered solutions compliant with New Zealand standards, and support for industrial, commercial, and infrastructure projects. Steel & Tube: Offers cable trays and ladders suitable for all cable containment needs, with full design support and BIM-enabled CAD files for planning and installation. Considerations for Fiberglass Cable Trays Fiberglass trays are preferred in environments where corrosion resistance, chemical exposure, or marine conditions are concerns. They are lightweight, non-conductive, and suitable for vertical or complex installations. When selecting a manufacturer or supplier, consider: Compliance with local and international standards Availability of custom sizes and fittings Engineering support...
