

Papua New Guinea Flame-Retardant Fireproof Cable Trays

AI Overview

Several companies in Papua New Guinea supply high-quality flame retardant cable trays, including FRP and galvanized steel options, suitable for industrial and commercial applications. Key Suppliers:

1. Brilltech Engineers Pvt. Ltd. Brilltech offers a wide range of cable trays, including ladder and perforated types, made from galvanized steel, stainless steel, and fiberglass. Their trays are designed for durability, corrosion resistance, and compliance with safety standards. Brilltech provides customization options for size, material, and design, ensuring optimal airflow, cable protection, and fire safety for industrial and construction projects in Papua New Guinea.
2. Cable House Established in 1983, Cable House manufactures and supplies cable trays along with related products like hose clamps and cable ties. They provide customized solutions for flame retardant and high-durability cable management systems. Their products are recognized for reliable performance and long service life, making them suitable for both national and international projects.
3. TradeKey / Shandong Huaxian This supplier specializes in FRP (fiberglass reinforced plastic) cable trays, which are inherently flame retardant, corrosion-resistant, and lightweight. FRP trays are ideal for environments requiring fire insulation, self-extinguishing properties, and high durability. They offer ladder and perforated types, with both polyester and vinyl ester resin systems, suitable for voltage applications below 10kV.
4. Jeetmull Jaichandlall (P) Ltd. Jeetmull Jaichandlall provides versatile cable trays made from sturdy materials with excellent impact resistance and durability. Their trays are suitable for industrial, construction, and mining applications. The company emphasizes customization, adherence to industry standards, and global supply, making them a reliable option for flame retardant cab...
