

Philippine OTN Router 40G

AI Overview

40G OTN routers in the Philippines are available from leading vendors like Cisco, Juniper, Huawei, and MikroTik, supporting high-speed optical transport and enterprise-grade connectivity.

Router Options and Specifications

For high-performance 40G Optical Transport Network (OTN) deployments, routers such as Cisco ASR9000, Juniper MX960/MX2020, and Huawei NE40E-X16A/NE40E-X3A are commonly used.

Key features include:

- Switching Capacity: Up to 81.92 Tbit/s (Huawei NE40E-X16A)
- Forwarding Performance: Up to 14,464 Mpps (packets per second)
- Power Options: AC and DC redundancy for reliability
- Virtualization: SDN support for efficient network management

Use Cases: Core and edge routing in enterprise WANs, campus networks, data centers, and service provider networks. These routers support multi-protocol OTN transport, enabling seamless integration with 1/10/40/100G Ethernet networks and carrier-grade optical links. They are compatible with QSFP-40G-LR4 transceivers, which provide long-range 40G connectivity up to 10 km over single-mode fiber.

Connectivity in the Philippines

For mobile or hybrid deployments, Philippine data SIMs can be used with routers or MiFi devices. Providers like Smart Communications offer 40GB, 60GB, and 80GB plans with nationwide 4G/LTE coverage and 5G access in major cities such as Metro Manila, Cebu, and Davao. These SIMs are suitable for IoT/M2M, enterprise connectivity, and field operations.

Transceivers and Modules

40G OTN routers typically use QSFP (Quad Small Form-Factor Pluggable) modules:

- QSFP-40G-LR4: Long-range, 10 km, LC connector, IEEE 802.3ba compliant

Hot-swappable and interoperable with other IEEE-compliant 40GBASE interfaces. Provides a cost-effective solution for high-speed optical links in data centers and service provider networks.

Deployment Considerations

- Ensure router and transceiver compatibility (e.g., Cisco ASR9000 with Cisco QSFP-40G-LR4)
- Evaluate power redundancy and cooling requirements for data center installations
- Consider lo...
