

Portuguese air-blown optical cable price inquiry

AI Overview

Air-blown optical fiber cables in Portugal vary in price depending on fiber count, material, and supplier, with quotes typically obtained directly from manufacturers or distributors.

Overview of Air-Blown Optical Cables

Air-blown optical cables are designed for flexible deployment in pre-installed ducts, allowing fibers to be blown into the duct when needed. This system reduces installation risk and enables long-distance links, sometimes up to 1 km, with high reliability and compatibility with standard optical connectors (Leviton BLOLITE and MicroBlo systems). Common types available in Portugal include:

- GCYFY loose tube cables:** High-modulus material with 250 μm fibers, waterproof compound, and PE sheathing, suitable for backbone networks and fiber-to-the-home applications.
- OMC air-blown cables:** Contain 4–48x 250 μm bare fibers, offering excellent dimensional and thermal stability to reduce signal loss.
- HDPE air-blown cables:** Durable polyethylene sheathing for outdoor and industrial applications, supplied by companies like Norden.

Factors Affecting Price

The cost of air-blown optical cables in Portugal depends on several factors:

- Fiber Count:** More fibers per cable increase material and manufacturing costs.
- Cable Material:** Loose tube, HDPE, or reinforced cores affect durability and price.
- Installation Method:** Pre-connectorized or ready-to-blow systems may carry a premium.
- Supplier and Brand:** International brands like Leviton or OMC may be priced higher than local manufacturers.
- Quantity and Delivery:** Bulk orders or long-distance shipping can influence the final price.

Suppliers in Portugal

Several companies provide air-blown optical cables:

- Jorsat (Viseu, Portugal):** Offers pre-connectorized fiber optic cables and backbone solutions.
- Leviton:** Supplies BLOLITE™ and MicroBlo™ air-blown fiber systems for internal and external applications.
- OMC Cable:** Offers a range of air-blo...

OEM High Quality Multicore Outdoor Air Blown Micro Duct Fiber Optic Cable, Multi-Layer Twisted Non-Metallic Air Blown Optical Fiber Cable with Good Price
US\$0.05-0.122 1,000 Meters (MOQ)

Air Blown Optical Fiber Cable

Leviton Air Blown Fiber Systems offer solutions for internal and external applications with their market leading Blolite and MicroBlo.

Installation of Optical Fiber Cable by Blowing/Jetting

Cable blowing is the process of installation of optical fiber cable into a pre-installed duct. Compressed air is injected in the duct inlet after few hundred meters of cable is pushed into the duct. Compressed air

Air Blowing Micro fiber Optic Cable

The blowing system consists of micro-tubes (single micro-tubes and micro-tubes), micro-cables, fittings and air blowing equipment. Contact Us to Buy High Quality

Microduct Air Blowing Fiber Micro Duct Tube HDPE Prices

A fiber optic microduct is a small-diameter HDPE tube (usually 5–18 mm)

Air Blown Optical Fiber Cable

BLOLITE is easily installed using compressed air and fibers are easy to terminate and are compatible with all standard optical connectors. BLOLITE is extremely reliable, with a zero failure rate since the

Top Fiber Optic Cable Manufacturers in Portugal

Discover all relevant Fiber Optic Cable Manufacturers in Portugal, including FastFiber and Altice Labs

The FOA Reference For Fiber Optics

The tradeoff is to install conventional fiber cables with more fibers, even hybrid SM/MM cables, initially when extra fibers are relatively inexpensive. Air-blown

Fiber Optic Cable Price, 2026 Fiber Optic Cable Price Manufacturers ...

OEM High Quality Multicore Outdoor Air Blown Micro Duct Fiber Optic Cable, Multi-Layer Twisted Non-Metallic Air Blown Optical Fiber Cable with Good Price
