

Galvanized steel angles for cable trays typically range from \$2 to \$10 per meter, depending on size, thickness, and type of galvanization. Pricing Overview Hot-Dip Galvanized (HDG) Steel Angles: Commonly used for outdoor or high-moisture environments, prices generally start around \$5.41 for a 2" x 2" x 20 ft angle and can increase with larger sizes or thicker steel. Pre-Galvanized or Zinc-Plated Steel Angles: Slightly cheaper, suitable for indoor or less corrosive environments, with prices starting around \$2-\$5 per meter depending on dimensions. Size and Thickness Impact: Larger leg dimensions and thicker steel increase material cost. For example, a 4" x 4" x 3/8" angle costs more than a 2" x 2" x 1/8" angle. Supplier Examples: TechLine offers hot-dip galvanized angles in 20 ft lengths starting at \$5.41 per piece for 2" x 2" sizes. MetalsDepot stocks a wide range of galvanized angles, with prices varying by size and thickness, typically \$10-\$35 per meter for standard A36 steel angles. Market Analysis indicates that galvanized steel cable trays range from \$2 to \$10 per meter, with bulk orders potentially reducing costs by 20-40%. Factors Affecting Price Material Type: Hot-dip galvanized is more expensive than pre-galvanized due to longer corrosion protection. Dimensions: Wider and thicker angles require more steel, increasing cost. Quantity: Bulk purchases often reduce per-meter pricing. Supplier and Location: Prices vary by region and shipping costs. Additional Coatings: Powder-coated or specialty finishes add to the price. Practical Tips For outdoor or industrial installations, hot-dip galvanized angles are recommended despite higher upfront cost due to longer lifespan. For indoor or dry environments, pre-galvanized or zinc-plated angles can be cost-effective. Always compare suppliers and consider bulk orders to optimize cost. In summary, for galvanized angle steel used i...
