

Price of 300x100 Mesh Cable Tray

AI Overview

The price of a 300x100 mm mesh cable tray typically ranges from \$15 to \$50 per meter, depending on material, finish, and supplier.

Overview A 300x100 mm cable tray is a common size used for organizing and supporting power, control, and communication cables in industrial, commercial, and infrastructure projects. These trays are available in various materials, each affecting the price:

- Galvanized Steel:** Offers high strength and durability; prices generally range from \$20 to \$40 per meter depending on thickness and coating.
- Aluminum:** Lightweight and corrosion-resistant; typically priced around \$25 to \$50 per meter.
- Stainless Steel:** Highly corrosion-resistant for harsh environments; prices can exceed \$40 per meter.
- Fiberglass Reinforced Plastic (FRP):** Non-conductive and chemically resistant; pricing varies widely based on supplier and specifications.

Supplier Options Alibaba and Made-in-China platforms list multiple suppliers offering 300x100 mm trays with wholesale pricing, often negotiable for bulk orders. McMaster-Carr and Grainger provide ready-to-ship options with same-day or next-day delivery, suitable for smaller projects or urgent installations. Prices may vary based on tray length (commonly 3 meters per section), mesh design, and accessories like connectors, bends, and supports.

Factors Affecting Price

- Material:** Steel is generally cheaper than aluminum or stainless steel.
- Finish:** Hot-dip galvanization or powder coating increases cost but improves corrosion resistance.
- Load Capacity:** Heavier-duty trays designed for industrial loads cost more.
- Supplier Location:** Shipping and import duties can affect final price.
- Quantity:** Bulk purchases often reduce per-meter cost.

Recommendation For budgeting purposes, expect \$15–\$50 per meter for a 300x100 mm mesh cable tray, with aluminum and stainless steel at the higher end. Always confirm with suppliers for current pricing, shipping, and warranty options before purchase to ensure compatibility with your project requirements.
