

Price of 4-core optical cable

AI Overview

The price of 4-core optical fiber cables ranges from approximately \$0.40 to \$1.80 per meter, depending on type, jacket, and installation requirements.

Price Overview

Indoor basic 4-core cables: Around \$0.40 per meter for standard PVC-jacketed single-mode or multimode cables suitable for office or campus networks (100-meter reels typically \$60-\$90).

Outdoor or armored cables: Can cost up to \$1.80 per meter due to ruggedized construction, LSZH jackets, or direct burial suitability.

Single-mode vs. multimode: Single-mode (OS2) cables generally cost more than multimode (OM3/OM4) because they support longer distances and higher performance.

Retail vs. wholesale: Bulk purchases reduce per-meter cost; wholesale prices for single-mode 4-core cables can range from \$0.09 to \$1.52 per foot, while multimode may range from \$1.50 to \$6.00 per foot depending on specifications.

Factors Affecting Cost

Cable Type: Single-mode for long-distance transmission, multimode for shorter runs.

Jacket Material: PVC, LSZH, or armored jackets influence durability and price.

Installation Environment: Indoor, outdoor, aerial, or direct burial applications affect cost.

Length and Quantity: Longer cables and bulk orders often reduce per-meter pricing.

Brand and Quality: Reputable manufacturers like OWIRE and Wolontek provide tested, certified cables, which may cost more but ensure reliability and lower maintenance.

Typical Use Cases

Backbone cabling: Single-mode 4-core cables for long-distance campus or FTTH networks.

Enterprise LANs: Multimode 4-core cables for shorter indoor runs.

Harsh environments: Armored or LSZH cables for outdoor or industrial installations.

In summary, for a standard 4-core optical fiber cable, expect \$0.40-\$1.80 per meter, with single-mode and ruggedized options at the higher end. Bulk orders and wholesale purchases can significantly reduce costs, while ensuring quality and compliance with international standards is crucial to avoid premature failures and maintenance issues.
