

Price of Crossbars for Cable Trays

LoRa handheld portable base station

AI Overview

Cable tray crossbars typically range from \$20 to \$150 per unit, depending on size, material, and brand. Overview of Cable Tray Crossbars Cable tray crossbars are essential fittings used to create horizontal crossings in cable tray systems, ensuring organized and secure routing of power, data, and control cables. They are commonly made from galvanized steel or cold-rolled steel and are designed for both indoor and outdoor use. Crossbars can accommodate different tray widths, typically ranging from 100 mm to 300 mm, and side heights from 60 mm to 85 mm. Installation is usually straightforward, using screws or clamps, and some models offer screwless mounting for faster assembly. Types and Applications Industrial/Commercial Cable Tray Crossings: Heavy-duty, corrosion-resistant, and fire-rated (e.g., E90 per DIN 4102-12), suitable for factories, commercial buildings, and renovation projects. Rack-Mounted Cable Management Crossbars: Designed for server racks and IT equipment, often 1U or 2U in height, with pass-through holes or hooks for zip ties and Velcro straps. These are ideal for fiber optic cables and small cable bundles. Pricing Considerations Material: Galvanized steel or powder-coated steel increases durability and cost. Size: Larger crossbars for wider trays or heavy-duty applications cost more. Brand: Premium brands like OBO Bettermann or Innovation First may be priced higher due to quality and certifications. Quantity: Bulk purchases often reduce per-unit cost. Typical price ranges: Small rack-mounted crossbars (1U/2U): \$20-\$50 each. Standard industrial cable tray crossings: \$50-\$150 each, depending on size and load capacity. Additional Notes Shipping and handling fees may apply, especially for international orders. Some suppliers offer free shipping for online orders within certain regions, but this usually applies only to smaller, lightweight crossbars. For precise pricing, it is recommended to check supplier websites like Ekabel.24, OBO Bettermann, RackSolutions, RackPath, or Provantage and request a quote based on...
