

Price of Fiber Optic Terminal Box Mounting

AI Overview

Fiber optic terminal boxes for wall or pole mounting typically range from \$10 to \$80 depending on port capacity, material, and indoor/outdoor suitability.

Pricing Overview

- Small indoor wall-mounted boxes (2-4 ports):** These compact enclosures, often made of ABS or PC plastic, are suitable for residential FTTH applications and typically cost \$10-\$25 per unit (Amazon, Mefiberoptic).
- Medium indoor/outdoor boxes (4-8 ports):** Metal or reinforced plastic boxes designed for splicing, termination, and storage of fiber pigtails, with features like heat shrink sleeve slots and locking doors, usually range from \$25-\$50.
- High-capacity boxes (12-16 ports or more):** Larger wall-mounted or pole-mounted enclosures for enterprise or multi-dwelling units, often flame-retardant and compliant with ITU-T/IEC standards, can cost \$50-\$80 depending on material and additional features like waterproofing or splitter integration.

Factors Affecting Price

- Port Capacity:** More ports increase the cost due to additional adapters and internal routing guides.
- Material:** Metal enclosures are more durable and secure, generally costing more than plastic boxes.
- Indoor vs Outdoor:** Outdoor-rated boxes with waterproofing and UV resistance are priced higher.
- Included Accessories:** Some boxes include screws, heat shrink sleeves, or splitter trays, which can slightly increase the price.
- Brand and Certification:** Boxes from established manufacturers with ITU-T or IEC compliance may be priced higher for guaranteed quality and reliability.

Example Products

- 4-Port Indoor Wall-Mounted FTTH Box:** Plastic, compact, includes cover, base, screws, and heat shrink sleeves, priced around \$12-\$20.
- 8-Port Metal Wall-Mounted Terminal Box:** Supports SC, LC, FC, ST connectors, metal construction, locking door, priced around \$35-\$50.
- 16-Port Outdoor Wall-Mounted FTTH Box:** Flame-retardant plastic, waterproof, suitable for residential or small ente...
