

Price of Main Electrical Distribution Box for a House

AI Overview

Home electrical distribution boxes typically cost between \$150 and \$1,900, depending on size, features, and installation requirements.

Typical Price Ranges

- Standard residential units:** For a typical single-family home with a 100-125 amp service, distribution boxes generally cost \$450 to \$1,500, including parts and professional installation.
- Basic panel boxes:** Smaller or simpler units without advanced features can start around \$150, suitable for minor upgrades or replacements.
- High-end or specialized units:** Larger panels, three-phase systems, or boxes with smart monitoring, surge protection, or weatherproof enclosures can reach \$1,900 or more.

Factors Affecting Cost

- Amperage and number of circuits:** Higher amp ratings and more breaker slots increase the price.
- Type of protective devices:** Boards with MCBs (Miniature Circuit Breakers) or RCBOs (Residual Current Breaker with Overcurrent protection) offer enhanced safety but cost more.
- Material and construction:** Weather-resistant or corrosion-proof enclosures, often required for outdoor installations, carry a premium.
- Installation complexity:** Labor costs vary by region, accessibility, and whether rewiring or upgrades are needed.
- Additional features:** Smart monitoring, digital displays, and integration with building management systems can increase upfront costs but improve long-term efficiency.

Examples of Products

- Schneider Electric 100A SP MCB/RCBO Board:** Designed for residential use, providing reliable fault protection and efficient power management.
- Amazon 60A Power Supply Box:** Includes a multifunctional electricity meter, leakage circuit breaker, and waterproof sockets, priced for smaller-scale applications.

Summary

For a typical home, expect to pay \$450-\$1,500 for a standard distribution box with installation. Prices can be lower for basic units or higher for advanced, wea...
