

Price of Qatar Galvanized Ladder Cable Trays

AI Overview

The price of galvanized ladder cable trays in Qatar varies depending on material, thickness, duty rating, and supplier, typically requiring direct inquiry for exact quotes.

Overview of Galvanized Ladder Cable Trays

Galvanized ladder cable trays are widely used in industrial and commercial projects in Qatar for supporting heavy electrical cables and ensuring proper airflow to prevent overheating. They are typically made from hot-dip galvanized steel for outdoor durability and corrosion resistance, though pre-galvanized and stainless steel options are also available.

Ladder cable trays come in various duty ratings:

- Light Duty (LCT - 100):** Thickness 1.0 mm, side height 50 mm, length 2440-3000 mm, width 50-1000 mm.
- Medium Duty (MCT - 120):** Thickness 1.2 mm, side height 50-100 mm, length 2440-3000 mm, width 50-1000 mm.
- Heavy Duty (HCT - 150):** Thickness 1.5 mm, side height 50-100 mm, length 2440-3000 mm, width 50-1000 mm.
- Very Heavy Duty (VCT - 200):** Thickness 2.0 mm, side height 50-100 mm, length 2440-3000 mm, width 50-1000 mm.

Factors Affecting Price

Material and Coating: Hot-dip galvanized trays are more expensive than pre-galvanized or epoxy-coated trays due to superior corrosion resistance.

Tray Size and Duty Rating: Larger widths, longer lengths, and higher duty ratings increase cost.

Accessories and Fittings: Bends, tees, reducers, and support brackets add to the total price.

Supplier and Brand: Leading suppliers in Qatar include Adastra, Altura Industries, Triple M Qatar, and Electra Qatar, each offering competitive pricing and varying service levels.

How to Obtain Pricing

Since prices fluctuate based on project requirements, the most reliable way to get accurate pricing is to contact suppliers directly. Most suppliers provide quotations based on:

- Total length of cable tray required
- Duty rating and material specification
- Quantity...
